RESERVOIR MEDIA, INC. FILES FORM 8-K WITH FIRST QUARTER FISCAL 2022 FINANCIAL RESULTS

First quarter fiscal 2022 financial results highlighted by 23% increase in revenue and strong execution against strategic growth priorities

August 16, 2021, New York — Reservoir Media, Inc. (NASDAQ: RSVR) (“Reservoir” or the “Company”), an award-winning independent music company, today has filed an amendment no. 2 to the Current Report on Form 8-K (the “Form 8-K”), which includes financial results for the first quarter ended June 30, 2021 (the “first quarter 2022”). The Form 8-K can be found in the Company’s filings with the Securities and Exchange Commission (the “SEC”) at www.sec.gov, which are also included in the Investor Relations section of the Company’s website.

Highlights and Recent Developments

- Total revenues for the year ended March 31, 2021 were \$81.8 million, which represented an increase of 28% year-over-year, and were higher than previously forecasted.
 - Revenues for the first quarter 2022 increased by 23% to \$16.7 million as compared to the first quarter ended June 30, 2020 (the “first quarter 2021”) and were consistent with the Company’s expectations:
 - o Music Publishing revenues increased by 8% to \$12.3 million as compared to the first quarter 2021, mainly driven by existing catalog and catalog acquisitions, plus growth and contribution from streaming services for music consumption; and
 - o Recorded Music revenues increased by 94% to \$4.2 million as compared to the first quarter 2021, largely due to strong physical sales on the Chrysalis catalog, the continued growth of streaming services and the acquisition of Tommy Boy Music, LLC during the first quarter 2022.
 - For the first quarter 2022, operating income was \$282.0 million and OIBDA, defined as operating income before depreciation and amortization, was \$4.4 million. Adjusting for the impact of the one-time \$617.0 million benefit of the forgiveness of the Company’s loan under the Paycheck Protection Program during the first quarter 2021, OIBDA increased by 6% even with the additional costs during the first quarter 2022 associated with preparing to be a public company.⁽ⁱ⁾
 - Reservoir completed several acquisitions during the first quarter 2022, including an acquisition of the legendary independent hip-hop and electronic label Tommy Boy Music, LLC on June 2, 2021 for approximately \$100.0 million.
-

- Reservoir completed business combination with Roth CH Acquisition II Co., a special purpose acquisition company on July 28, 2021, adding over \$142 million after closing costs to the Company's balance sheet.

“Our financial and operational accomplishments during the first quarter 2022 were indicative of the impressive team and momentum we have built at Reservoir,” said Golnar Khosrowshahi, founder and Chief Executive Officer of Reservoir. “These accomplishments included several acquisitions that increased the strength of our catalog, as well as the expansion of our roster of songwriter and producer talent with several new signings over the last few months. We are the first U.S.-based publicly traded independent music company, and our recurring revenue model and growing brand put us in a strong position to capitalize on the powerful secular tailwinds we’re seeing across the music business and around the globe.”

Jim Heindlmeyer, the Chief Financial Officer of Reservoir, added, “Revenue for the first quarter 2022 was approximately 16% of our previously stated forecast for fiscal 2022, compared to revenue for the first quarter 2021 as a percent of total revenue of 17% in fiscal 2021. As we look forward, we plan to remain focused on driving industry-leading organic growth through our value enhancement initiatives, and we expect to continue to complement that work by executing strategic acquisitions of leading music portfolios. We look forward to leveraging the power of our recurring revenue model, which includes strong operating leverage and substantial cash flow generation that will support our growth strategy.”

(i) **OIBDA**

Reservoir's management uses operating income before depreciation and amortization ("OIBDA") to evaluate Reservoir's operations, measure its performance and make strategic decisions. Reservoir believes that the use of OIBDA provides useful information to investors and others in understanding and evaluating Reservoir's results of operations and trends in the same manner as Reservoir's management. However, OIBDA is not a financial measure calculated in accordance with United States generally accepted accounting principles ("GAAP") and, as a result, should not be considered as a substitute for operating income or any other operating performance measures calculated in accordance with GAAP. Using OIBDA to analyze Reservoir's business would have material limitations because the calculations are based on the subjective determination of Reservoir's management regarding the nature and classification of events and circumstances that you may find significant. In addition, although other companies in Reservoir's industry may report measures titled OIBDA or similar measures, such non-GAAP financial measures may be calculated differently from how Reservoir calculates OIBDA, which reduces OIBDA's overall usefulness as comparative measure. Because of these limitations, you should consider OIBDA alongside other financial performance measures and other financial results presented in accordance with GAAP.

The table below sets forth the reconciliation of OIBDA to operating income for the three months ended June 30, 2021 and June 30, 2020 (in thousands):

	For the Three Months Ended		2021 vs. 2020	
	2021	2020	\$ Change	% Change
Operating income	\$ 282	\$ 1,306	\$ (1,024)	(78)%
Amortization expense	4,048	3,374	674	20%
Depreciation expense	31	56	(25)	(45)%
OIBDA	\$ 4,361	\$ 4,736	\$ (375)	(8)%
